Awareness Programme on Cancer in Animals organised by NSS & Dept. of Veterinary Pathology, RIVER on 04.02.2020
On account of the World Cancer Day (4th February), the Rajiv Gandhi Institute of Veterinary Education and Research (RIVER), Puducherry organized an awareness programme at the Veterinary Clinical Complex of RIVER for pet and domestic animal owners on the importance of cancers in animals. Like their human counterparts, animals also suffer from various types of cancers. The diagnostic procedures are akin to humans and early detection can lead to appropriate treatment. The programme was co-ordinated by the Department of Veterinary Pathology and the National Service Scheme (NSS) unit of RIVER. Videos on cancer awareness were projected and pamphlets on cancer detection and treatment were distributed to the animal owners.
